

I recently had the pleasure to partake in a Mountain Lion and Black Bear combo hunt with Matt Gilstrap at Extreme Hunting Adventures. While I have hunted in many places across the county and world, Matt's professionalism and desire to hunt hard are what separate him from many outfitters I have used in the past. Simply put, Matt has an unwavering passion for hunting whether it be with a client or on his own, not something you find in every guide. We had great success during this trip and I attribute it to Matt having a great hunting area, two solid packs of hounds, and ultimately his knowledge of both the land and the animal we were pursuing. If you are looking for a guide that will give 150% each and every day never asking for a break, Matt is your guide. He will work as hard as you will to get the job done and regardless of success, I am sure you will have a great time viewing the Gila first hand. Thanks again Matt for the great food and hospitality and a special thanks to the hounds that out smarted one tough cat and one giant bear. David Rearick
